V Learn
Empowering Global Education

V Learn Platform - Interactive Power BI Dashboard Suite

Strategic Diagnostic & Executive Telemetry Report

Gemini Notebook

V Learn
Empowering Global Education

Agenda :

- ✓ About V-Learn & Proposal – Quick View
- ✓ Transforming Fragmented Telemetry into Executive Insight
- ✓ Rapid Engagement Growth Dictates a Microlearning Mandate
- ✓ Healthy Top-of-Funnel with throughput with untapped Mid-Funnel Potential
- ✓ Churn Risk is not systemic. It is a Localized Geographic Anamoly
- ✓ Exceptional Instructional Baselines Provide a Blueprint for Scaling
- ✓ High Efficacy however Assessment Uniformity requires Recallibration
- ✓ Interventions – Blue Print
- ✓ Further Recommendations to Improve Learner Engagement

Gemini Notebook

V-Learn - Project Background :

V-Learn, an Edtech Platform is empowering learners to become better in their career paths. However, currently facing the day-to-day challenges in the following key areas :

- Limited visibility into **Daily Active User trends** and how students **accessed the platform** (laptop, mobile, ortablet)
- Delayed reporting on **course completion, drop rate**, and assessment performance.
- Lack of consistent metrics across academic, product, and instructor-facing teams.
- Limited ability to compare learner outcomes **across regions, course categories, and difficulty levels**.
- Difficulty identifying which learners were at **high risk** of disengaging or dropping a course.
- **Manual reporting** processes that reduced speed, accuracy, and scalability.

V-Learn, an EdTech platform Needs :

A suite of interactive Power BI dashboards focused on improving student engagement, course completion, and learner retention.

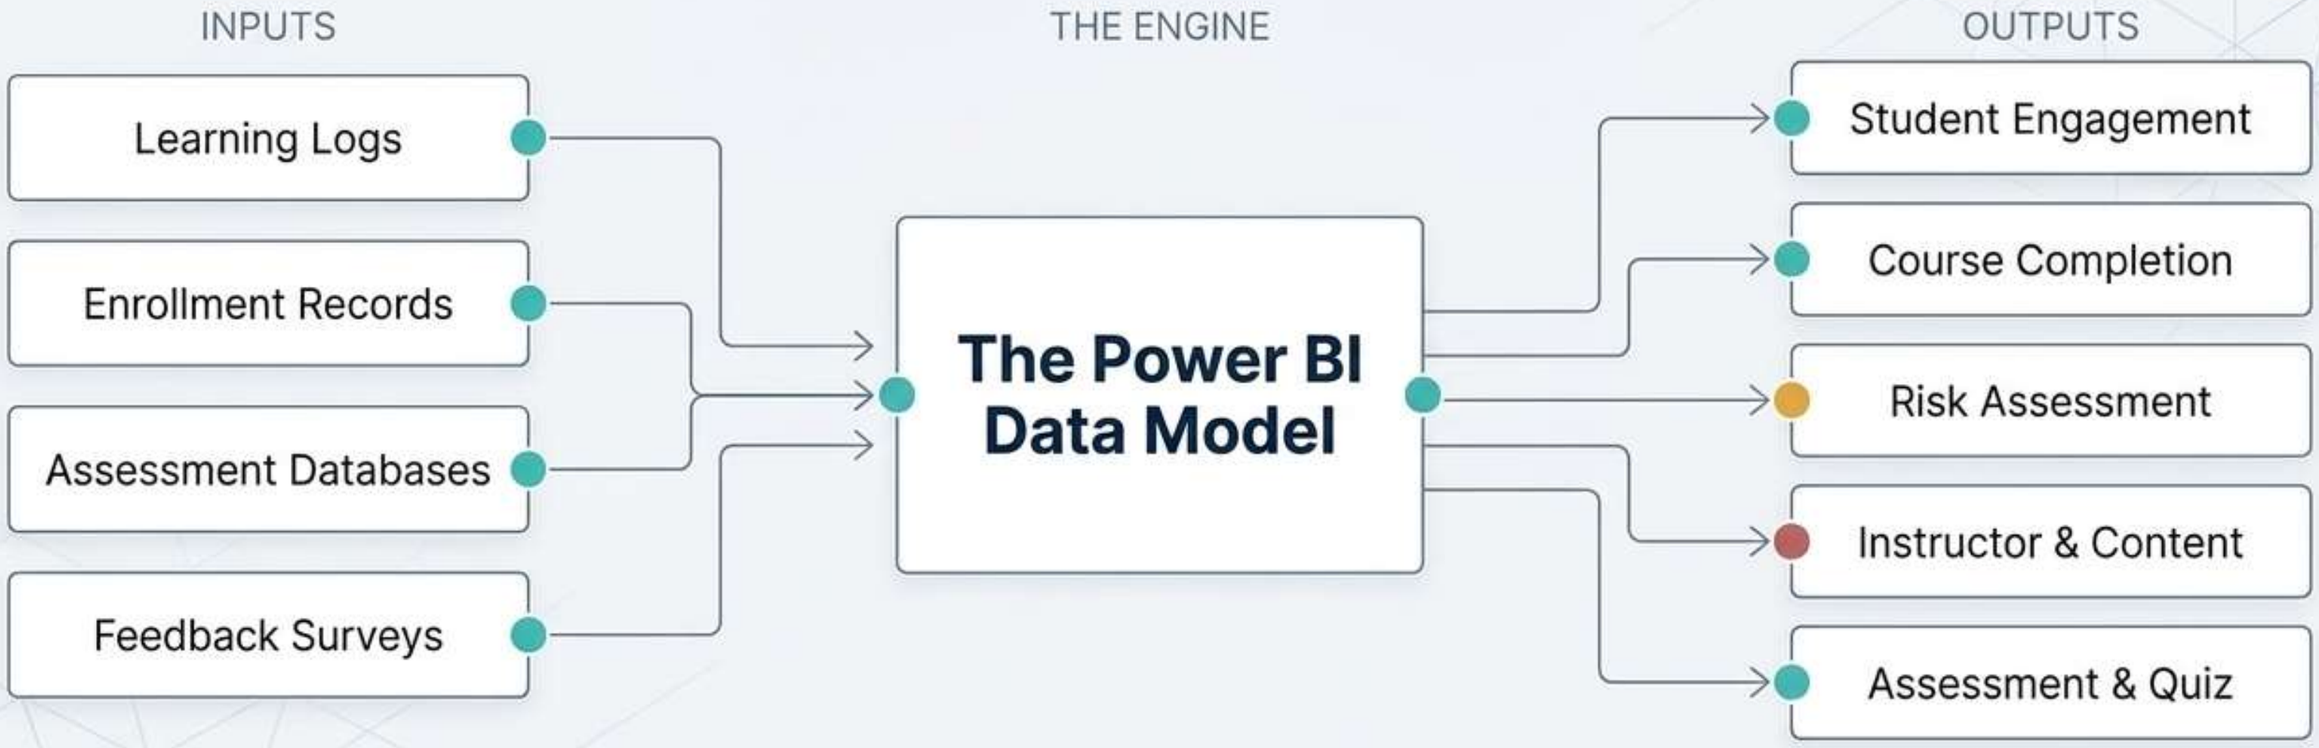

To start with, V Learn identified five role-focused key areas

1. Student Engagement,
2. Course Completion,
3. Instructor & Content Performance,
4. Assessment & Quiz Performance
5. Risk Assessment

For supporting better academic decisions, product improvements, and retention strategies

Gemini Notebook

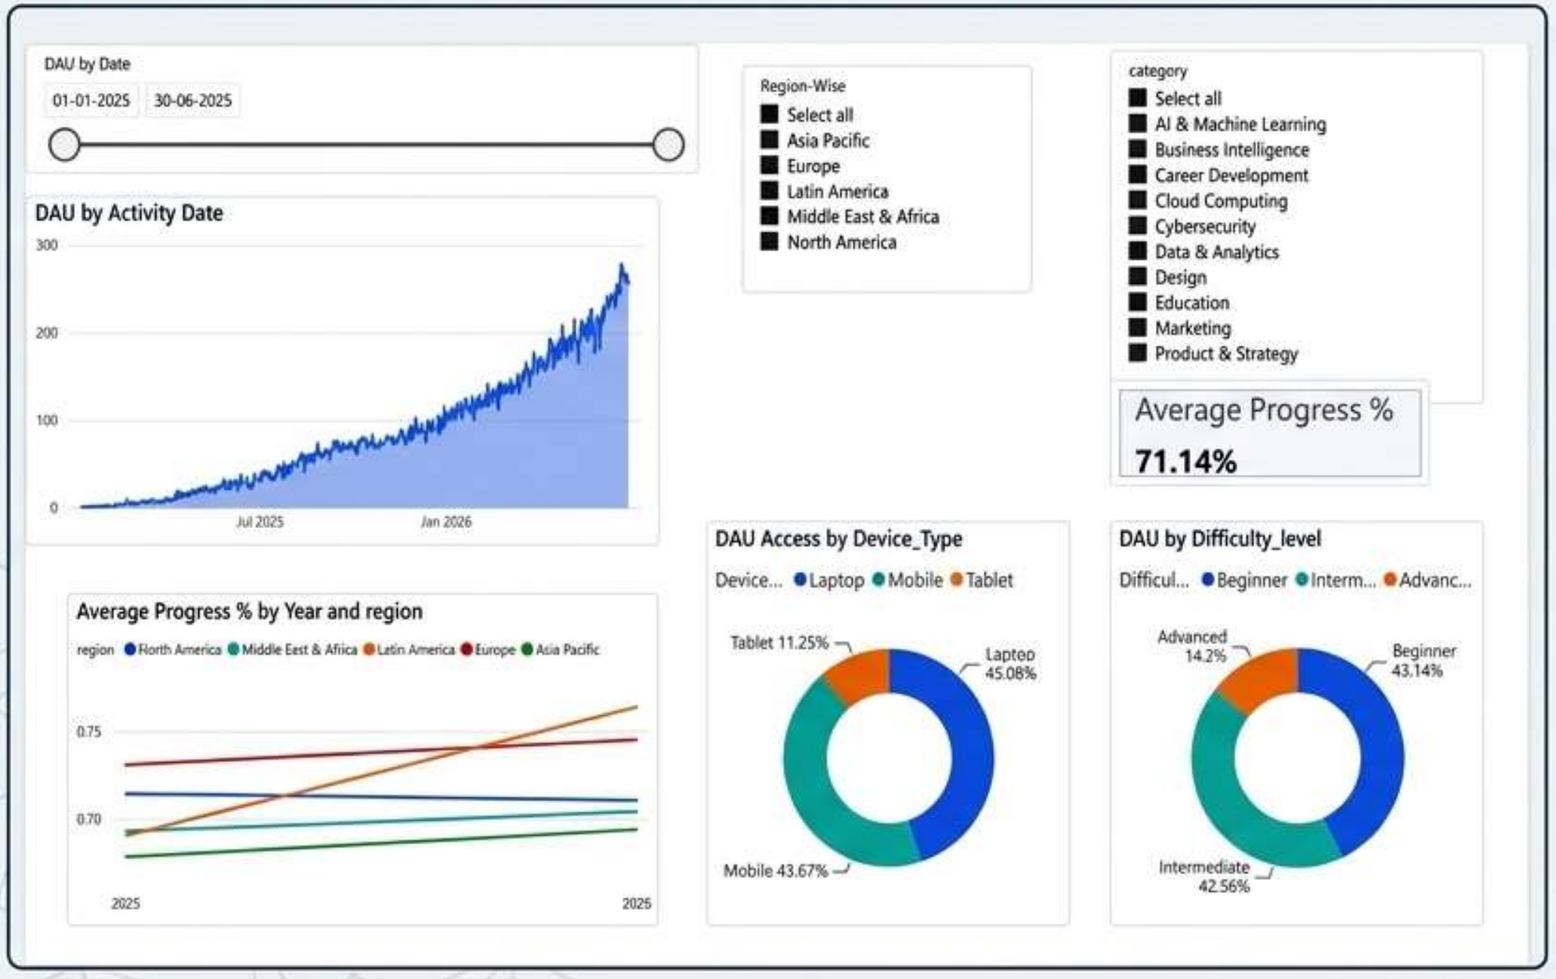

Transforming Fragmented Telemetry into Executive Insight

This architecture consolidates historically siloed data sets into a singular operational control room, enabling immediate pivoting from reporting to strategic action.

Gemini Notebook

Rapid Engagement Growth Dictates a Microlearning Mandate

71.14%

Average Course Progress

Accelerating Momentum

Rapid, consistent upward momentum in Daily Active Users (DAU) across the observed timeline.

54.92%

Total 'On-The-Go' Access

43.67% Mobile	11.25% Tablet

Insight: UI and content delivery must ruthlessly prioritize smaller screens to support mobile-first microlearning.

Gemini Notebook

Healthy Top-of-Funnel Throughput with Untapped Mid-Funnel Potential

Enrolled
2.19K

The Activation Target:
725
'In Progress' enrollments

Primary lever for immediate activation and ROI.

Completed
1.15K

Core Engine:
53%
overall course completion rate.

Friction Point: 6.95% overall drop rate.

Empowering Global Education
Gemini Notebook

Churn Risk is Not Systemic; It is a Localized Geographic Anomaly

Risk Triage Matrix

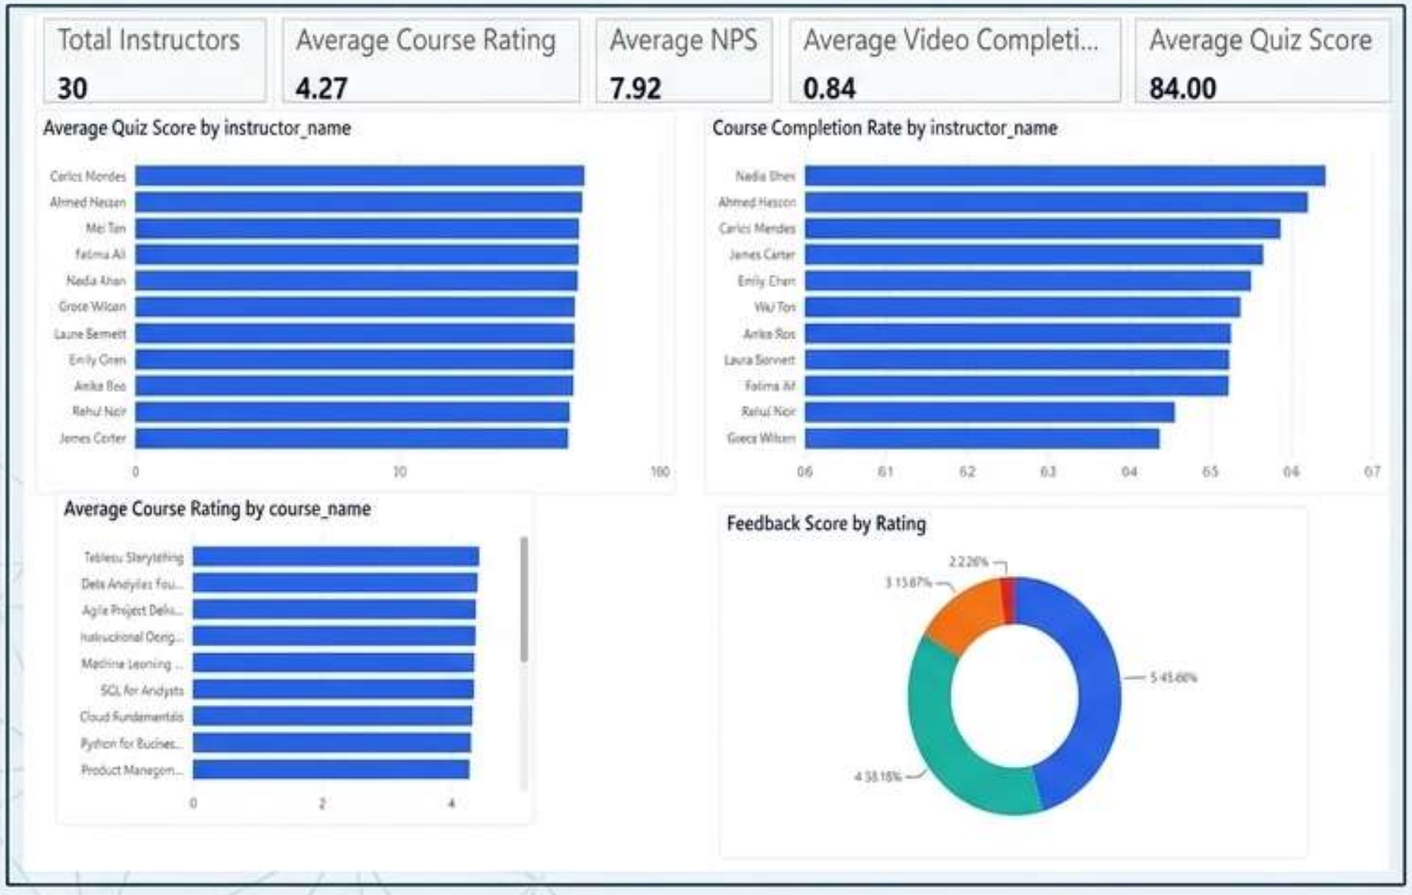

Geographic Diagnostic

APAC is the definitive epicenter of high-risk enrollments. Intervention requires localized support, not a fundamental shift in core curriculum.

V Learn
Gemini Notebook

Exceptional Instructional Baselines Provide a Blueprint for Scaling

Efficacy & Satisfaction

4.27

Average Rating across 30 active instructors.

7.92

Average NPS (Loyalty Index).

The Champions

Nadia Khan **Ahmed Hassan**

Synthesis: These instructors generate immense goodwill. Their specific engagement tactics, pacing, and assessment designs must be codified and deployed platform-wide to elevate lower-performing modules.

V Learn
Empowering Global Education
Gemini Notebook

High Efficacy, But Assessment Uniformity Requires Recalibration

The Plateau

86%
overall quiz pass rate

84.00
average quiz score

Diagnostic Warning

Applied Projects — Capstones — Core Concepts

The unusual uniformity and lack of standard deviation suggests our current multiple-choice formats may not be effectively differentiating true mastery, particularly in advanced or creative tracks.

The Intervention Blueprint: Q3/Q4 Strategic Mandates

Pillar 1 **(Content Rescue)**

Target: The 6.95% Drop Rate.

Mandate instructional redesign for high-friction technical courses, applying the pacing and practice blueprints pioneered by top instructors like Nadia Khan.

Pillar 2 **(Mobile-First Mandate)**

Target: The 43.67% Mobile User Base.

Ruthlessly optimize the UI, complex diagrams, and assessment interfaces specifically for smaller screens to support on-the-go microlearning.

Pillar 3 **(Localized Support)**

Target: The 672 High-Risk Enrollments in APAC.

Deploy region-specific interventions, including localized office hours, peer-tutoring cohorts, and targeted supplementary materials to bridge the regional comprehension gap.

V Learn
Gemini Notebook

V-Learn – Next Growth Phase – a Snapshot of Recommendation

- ✓ Develop an Enterprise-level Tracker App on a wider scale using the Artificial Intelligence & Machine Learning Models **(AI&ML)**

- ✓ Plan a Phase-wise roll-out for development and adoption for Better Business Performance and Student Learning Outcomes

Thank You & Lets Hope for the Best
